White paper on “SaaS in the maritime industry”

MESPAS has published a new White Paper on “How to improve efficiency and reduce costs by introducing Software as a Service”. The paper explores the pros and cons of SaaS, and takes a snapshot at how SaaS may serve to improve technical fleet management in the shipping industry. Software as a Service (SaaS) is one of the most important recent innovations in terms of deploying and using software, and it has eliminated many of the negative aspects associated with running software systems. What are the pros and cons of this new way of delivering computing resources? Why has the shipping industry been slow in taking up such innovative solutions? Who are some of the SaaS software providers in the shipping industry? [Download White Paper](#)

ST Management goes for MESPAS

We are pleased to announce that French-based ST Management will install the mespas R5 software system. [Read more](#)

New Sales Agent in Sweden: MarinData AB

MarinData AB has recently been appointed MESPAS sales agent in the Northern region. MarinData AB is based in the maritime city of Gothenburg, Sweden, and was founded by Mr. Gösta Algelin, Vice President of the Swedish Centre for Maintenance Management. [Read more](#)

PMS: Quick Status Overview

The clever MESPAS Status Overview in form of “traffic lights” does highlight areas that need attention, and enables your crews to focus on priorities. [Read more and view screenshot](#)
